Prime mercantile paper, 6@8 per cent, Sterling exchange was firmer, with actual business in bankers' bille at \$4.81@4.814 for sixty days and \$4.83@4.834 for demand. The stock market opened feverish and unsettled, but outside of general Electric, which declined 24, to 654, the losses were confined within a range of 4 to 1 per cent. The downward movement was soon checked by the placing of buying orders on a liberal scale in many of the lending stocks. The fact that the banks did not find it necessary to take out additional clearing house loan certificates and the knowledge that currency shipments to the West had practically ceased, encouraged The shorts were considerably alarmed and their purchases accelerated the upward movement. It was reported that \$2,000,000 gold had been engaged in London for shipment to New York. The advance ordered by the Eastern and Western coal sales agents had a stimulating effect, as did also the statements by those closely identified with the General Electric company that the usual quarterly dividend of 2 per cent. will be declared during the current week. The improvement in prices was equal to 4's in Lacka-Wanna, 41s in General Electric, 45s in American Sugar, 3 in Missouri Pacific, 3 in Chicago Gas, and 12 to 2 per cent. in the remainder of the list. Late in the afternoon there was a reaction of 4 to 14 per cent., but the decline brought in a fresh batch of buying orders, and a partial re-

covery ensued. Among the specialties, American Tobacco broke 319, to 5319, recovered to 57, and finally reacted to 564 @ 5642. The market closed firm in tone. Railway bonds were heavy. The sales were \$667,000. Government and State bonds were dull. LOCAL GRAIN AND PRODUCE. Trade Rather Quiet Except in Commission

Row-Eggs and Poultry Higher, On the wholesale streets yesterday trade was a little off, but coming to commission row more activity was noticed. Receipts of fruit and vegetables yesterday were large, but prices were Well held. Irish potatoes are in large supply and are weak at quotations. Poultry and eggs both advanced and are in active request. Sugars and coffees are both weak and in the Eastern markets are a shade lower, but no reduction has been made in this market. The wholesale men, however, are anticipating

light, especially roasted grades. The local grain market is active. Wheat yesterday ruled steady at Monday's prices. Several grades of corn were off 4 @le. with oats steady and unchanged. CROP REPORTS ARE BETTER

Timely Rains Benefit Wheat and Bears Find Themselves in Control.

Price of the Leading Cereal Reduced 5-8c to 3-4c, There Being Some Notable Changing

from July to the December Future.

TRADING AT CHICAGO. Corn in Sympathy with Wheat, but Pork

Advances 30c Per Barrel. CHICAGO, June 27 .- The people sold wheat who bought it yesterday. Timely rains, which were needed for spring wheat, unsettled the bull sentiment. At the close July wheat was 4c and September 50 below yesterday's closing prices. There were some sustaining orders in pork and an advance of about 30c per barrel. Lard and ribe closed without change. Wheat at the opening was about 100% o lower than yesterday's closing, and prices receded 16040 more, then ruled stronger and advanced & @ sc, but again ruled weak and declined %o for July and %c for September, beld steady and the close was 18@4c from the bottom. The December future ruled comparatively stronger than the other futures, and closed about 'so lower. There were reports of cooler weather and rains in the Northwest and a dispatch which stated that the spring wheat crop was not so badly damaged as had been reported. Cable advices were received which said that there was some improvement in European crops, and that the yield would be larger than expected. Part of the trading to-day was in the way of closing out July and replacing by taking December, which accounts for the widening out of the premium for the latter future. There were reports of small receipts of new wheat, which affected the market some. St. Louis reported three cars and Baltimore 2,500 bushels. Threshing is progressing. On the break some of yesterday's short sellers began to buy in and gave the market a

lowed, lasting throughout the remainder Corn was easy at the start, first trades being off a fraction, and the market sold down 40 soon atterwards. At the decline the demand improved, the impression going around that a prominent trader was picking up a good deal of September. Offerings fell off considerably and the price advanced 1204c, but the arrivals for tomorrow came in heavy at 440 cars, and the price again weakened 40 c, railied and ruled easier, and at the close had lost &

little show of activity and strength. The

news came from New York that arrange-

ments had been made to import \$2,000,000 in

gold from Europe to relieve the money

stringency. The effect of this was to cre-

ate more confidence and increase the de-mand, under which there was a steady ad-

vance of %c. But double duliness fol-

In oats there was a steadier feeling early. prices advancing 38@40, but later reacted 4 @ se and closed quiet at about the same prices as on yesterday. Harvey was a large

buyer of cash oats. Provisions opened firmer at a slight advance in prices because of the receipts of about only 15,000 hogs instead of 19,000 as estimated yesterday. There was a decline from opening prices, due to the attempt by the leaders in the market to unload at the improvement, but finding that impossible they desisted and bid for enough to prevent a break of any extent. Attention was directed to the receipts of hogs at Kansas City and Omaha, which together amounted to 20,000 head, and that led to the idea that bigger receipts were to be expected here in the near future.

Freights were dull with fair offerings of vessel room at 1%c for wheat and 14c for corn to Buffalo. Estimated receipts for tomorrow are: Wheat, 135 cars; corn. 440 cars; oats, 210 cars; hogs, 23,000. The leading futures ranged as follows:
